### About us

Region Västra Götaland is governed by democratically elected politicians and with just over 50,000 employees is one of Sweden's biggest employers.

It is tasked with offering good healthcare and dental care and providing the prerequisites for good public health, a rich cultural life, a good environment, jobs, research, education and good communications. All together, these provide a foundation for sustainable growth in Västra Götaland.

Healthcare and medical treatment (90%)

- Growth and development matters.
- Culture.
- Close co-operation between the public sector, industry and academy.
